This GuckBook is for friends to enjoy myART.

Sometimes I drew the people or things around, sometimes it's surrealism that happened. Colours and lines I made as fast as it flew out of my brain into my hand through a pencil onto the paper.

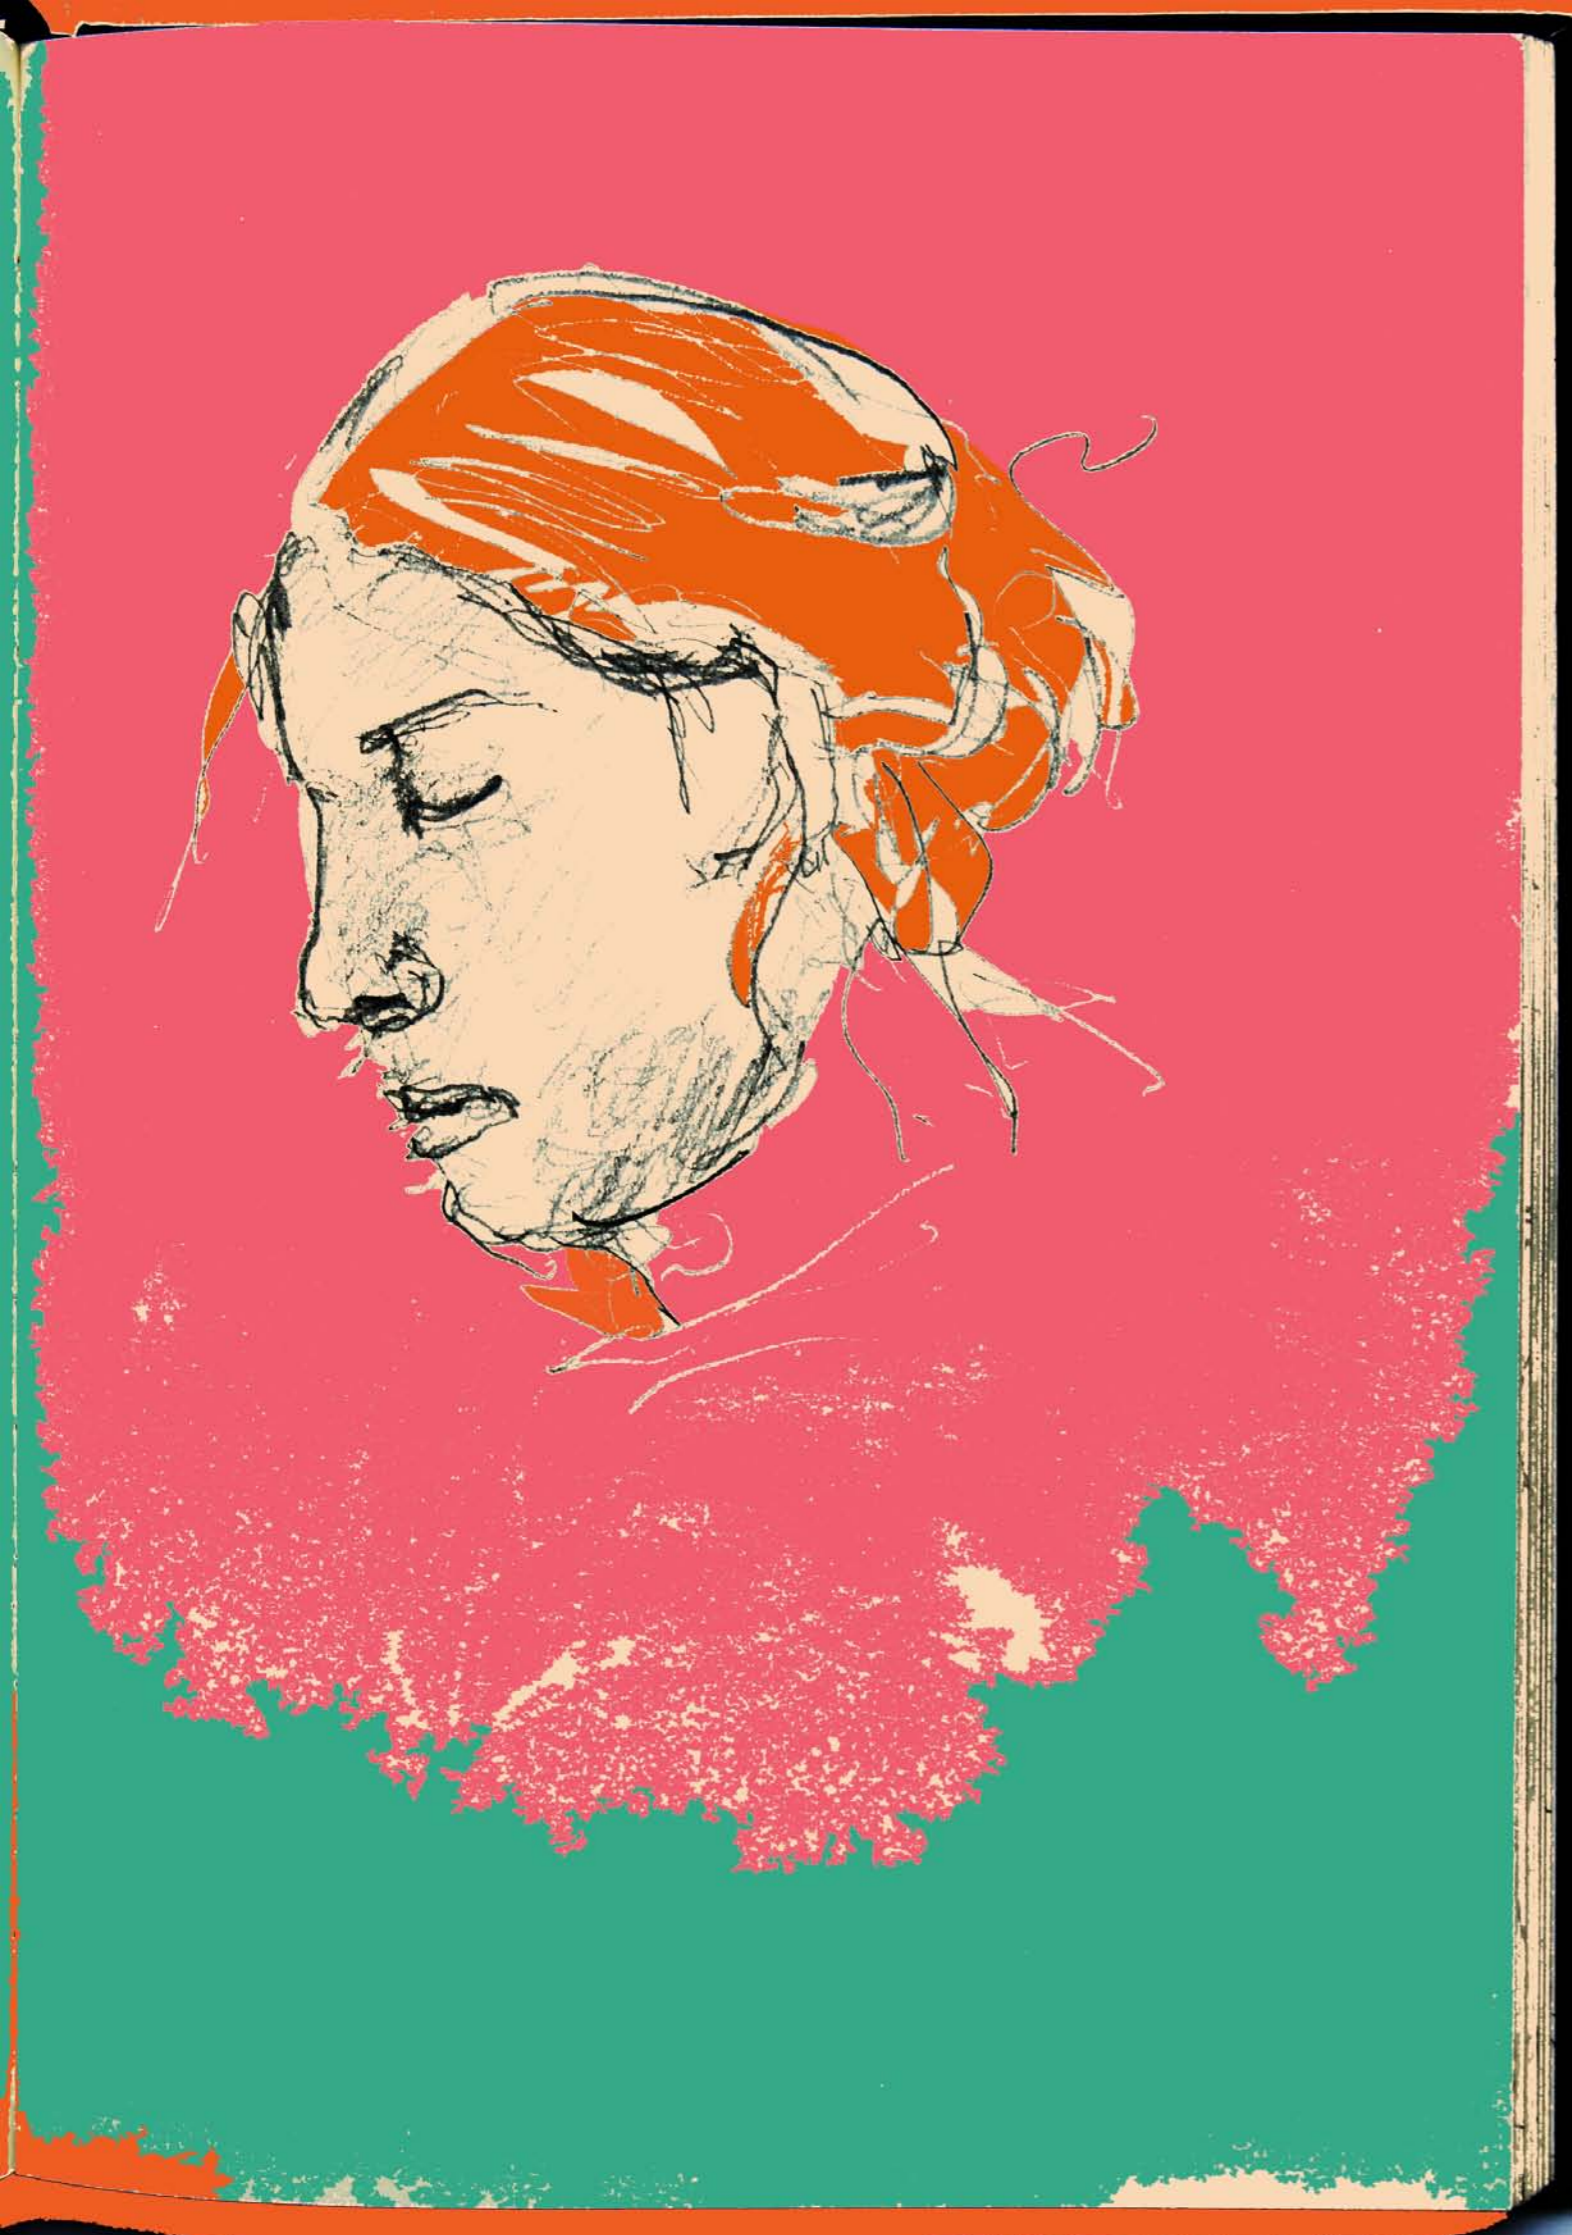

Trindoodles were made rapidly in a fast train. That gave my work dynamics. There is no intention for perfection. It's all for fun.

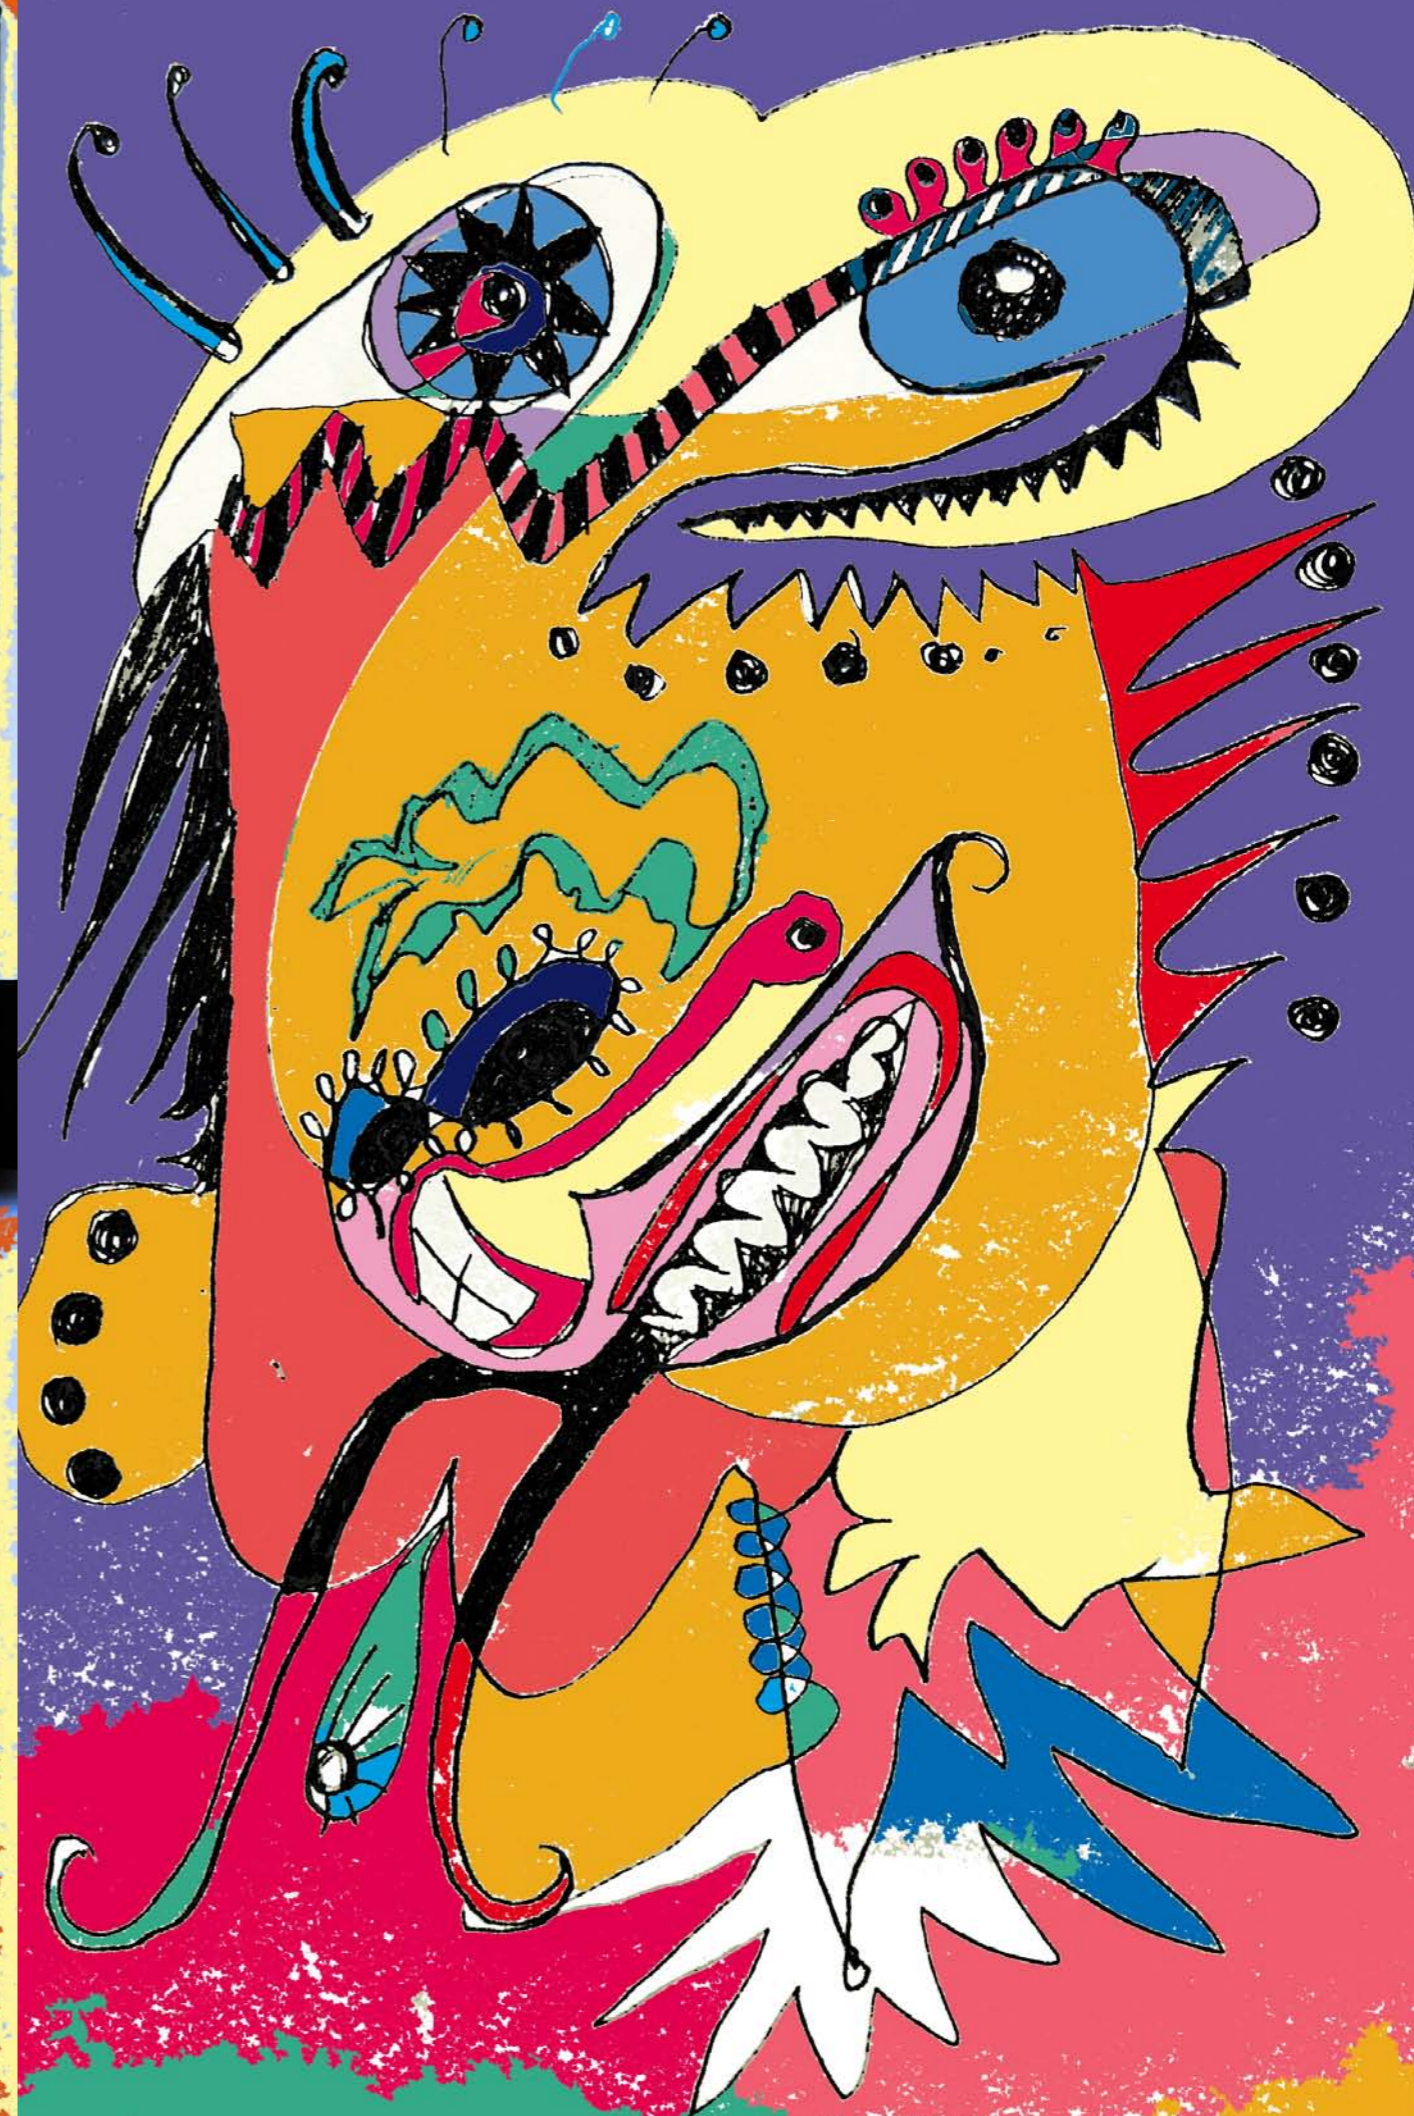

All drawings are out of a sketchbook from 2017, I added the digital colours in 2020. Words, layout, graphics, images by Stefan Kindermann. All is ART. All copyrights by Stefan Kindermann. Please do not copy without permission. For the right to publish or to reproduce please contact me at:

Colour sketch of a man

This is not the whole sketchbook, some works I left out, not every try was successful and a few drawings are not so close to the topic. You see the pure pencil drawings in Guckbook N0.: 24.
