Thanks for having a look into my Guckbook.
There are more Guckbooks for you on my site.

Here I present works out of my sketchbook from 2021 / 2022,
that I used for these vector images made in illustrator in 2022
/ 24. This is just a small selection, not even a best of, but I
hope you like them. Signum and dates I used is on the original
sketches from 2021 / 21. The vector - works I signed with the
date of the digital finish.

There is not much to say and more to look at the images.
Colors and lines are the language without a sound, look into
yourself, what you want to tell to yourself. I worked fast, had
no time for titles, so figure them out for your own, if you want.
Stef:)
